1 Installation Preparation

4G Module (Model: HYX-DCS-4G)

• Step 1: Remove the protective cover of the stick and insert the SIM card.
• Step 2: Install the waterproof cover of the communication stick.
• Step 3: Remove the waterproof cover at the communication interface of the inverter.
• Step 4: Insert the communication stick into the corresponding communication terminal at the bottom of the inverter and tighten it to ensure it is secure.

Step 1   Step 2   Step 3   Step 4

WIFI Module (Model: HYX-DCS-WL)

• Step 1: Remove the waterproof cover at the communication interface of the inverter.
• Step 2: Insert the communication stick into the corresponding communication terminal at the bottom of the inverter and tighten it to make sure it is secure.

Step 1   Step 2
LAN Module (Model: HYX-DCS-WL)

• Step 1: Replace the bottom plug of the communication stick with the LAN plug.
• Step 2: Insert the network cable connector into the network terminal.
• Step 3: Remove the waterproof cover at the communication interface of the inverter.
• Step 4: Insert the communication bar into the corresponding communication terminal at the bottom of the inverter and tighten it to ensure it is secure.

Step 1   Step 2   Step 3   Step 4
2 System Commissioning

2.1 Installing the App

Method 1
Download the "HYXiPOWER APP" from the app store:
- App Store (IOS)
- Google Play

Method 2
Scan the QR code and download the APP:

App Download

2.2 System Debugging

For more information on using the HYXiPOWER APP, please refer to the user manual "HYXiPOWER APP".
For system configuration and debugging, please refer to the user manual "HYXiPOWER Local Debugging APP".
